

Seeking Optometric Physician

We are a 3 doctor practice working with a team of 15 eyecare professionals. We work in a beautiful free standing building we built 4 years ago, have a solid reputation in the community, and receive many referrals.

We are looking for a unique individual whose passion is serving others and whose pleasure is making people's lives better every day; a servant leader who wants to make their own decisions within the context of high moral values, and technical excellence. Ownership is a possibility.

As an Optometric Physician in this practice, your regular duties will include:

- Perform comprehensive eye exams
- Diagnose and treat ocular disease
- Perform minor procedures
- Provide pre- and post-operative care to surgical patients
- Prescribe spectacle lenses
- Prescribe contact lenses
- Handle eye care emergencies

Technology: You will have all the modern technology such as Optos, OCT, OCTA, Humphrey Visual Field, Fundus Camera, Slitlamp Camera, TempSure, Visionix, and Riechert Digital Phoropters!

Compensation: Is based on your Production and will likely be \$100-150,000 plus benefits

The Area: We are a Private Practice group in Salem, OR, the State Capitol, in the heart of the beautiful Willamette River Valley. You'll live in the middle of lush fields and orchards, an hour from the ocean, the mountains, or the City. You can snow board, surf, hike, hunt, fish and much more.

We believe in making people's lives better, every day.

We believe it is better to serve than to be served.

We believe a positive attitude goes further than a negative attitude.

We believe in doing the best we can, because their eyes matter.

We believe if we take care of patients, they will take care of us.

We believe in high moral values and technical excellence.

Care to join us?

Email me and let's talk.

Dan Bishop, OD
