

A well-established, growing, comprehensive ophthalmology practice in beautiful Roseburg, Oregon seeks an optometrist. An interest in medical optometry is valued. This is a full time position and there likely will be opportunity of future partnership or sole ownership of the practice and building if so desired by the candidate.

No weekends or evenings scheduled in clinic, and technicians will assist you in clinic.

- Very competitive base salary, plus incentive bonus and benefits. Appointments at the practice are currently booked out for 1 year, so there is built-in volume to enable immediate success and attainability of the incentive bonus. Benefits include medical insurance, 401k with employer contribution, pension profit-sharing plan, cafeteria benefit plan, malpractice insurance, continuing education/professional dues allowance, paid time off.

- The practice has state of the art equipment, including a Heidelberg Retinal Tomographer, topographer, Lenstar, Humphrey Visual Field Analyzer, YAG and argon lasers, and Topcon touchscreen autorefractor. It has the premiere optical shop in Southern Oregon with 1800 frames.

- All of the technicians in the practice are excellent refractionists

Roseburg is a popular retirement community and has a large patient population for its size. Roseburg and its surrounding area have a population of about 100,000. Exquisite natural beauty and outdoor activities abound in Roseburg. Hiking, fishing, hunting, biking, running, tennis, skiing (alpine and cross-country) are readily available. We have an active theater community, many fine and performing arts activities for children and adults, and free concerts and movies in the parks. We are 1.5 hours drive from the beautiful Oregon coast, and 1-2 hours to cross country and downhill skiing. The larger communities of Eugene and Medford are an hour to the north and to the south. Roseburg has an excellent and rapidly growing wine industry. We have a superb community college that has an enology and vintner program. **You will not find a better community in which to raise a family or enjoy nature. The cost of living is low, and compensation is very competitive.**

Credentials required: Doctor of Optometry, able to be licensed as an optometrist in Oregon. Must have the ability to be credentialed with government and other third party payers.

Please include a current resume and contact information in an email to Andrea Gray, MD at gray.av@live.com.
